### 12 Ways to Feel Wealthy, Lucky & Successful

Your state of mind can make all the difference in the world. To be wealthy, lucky, and successful you need to think wealthy, lucky, and successful thoughts. In addition, adopting a feeling of wealth, luck, and success is easier than most people think. You can do it by tuning into the real sources of wealth. These are the following:

Health; Creativity; A good attitude; A good mind; A strong work ethic; Appreciation; Imagination; Peace of mind; and Faith in the future.

If you have these things, and you apply them well, you will—almost without a doubt—be wealthy, lucky, and successful in the foreseeable future. Below you'll discover 12 ways to feel wealthy, lucky, and successful now, regardless of your current circumstances.

1. **Make a List of Five.** Make a list of five things that you want more of in your life, which don't involve money. For example, more love, more serenity, and more laughter.
2. **Become Financially Literate.** Regardless of the current size of your bank account, start learning about money—learn how to take care of it and how to make it grow. Being knowledgeable about money will help make you feel that you have what it takes to make lots of it and invest it well.
3. **Go On a Rampage of Appreciation.** Right now think of 100 things that you're grateful for. Write them

down. Then, read through your list and allow the feeling of gratitude to wash over you. It's hard not to feel wealthy, lucky, and successful when you're focused on all the good that there is in your life.

4. **Help Someone Else.** Realizing that you have more than enough is a great way to feel wealthy, lucky, and successful. The best way to realize how much you have—other than by feeling grateful—is by giving to others.
5. **Nurture a Positive Attitude.** Having a positive attitude can help you feel lucky and successful.
6. **Dress the Part..** Why? Because the reality is that people make assumptions about you based on how you look and dress. (Continue on next page...).

If you dress well, others will assume that you must be in high demand and they'll want to do business with you. Buy the best quality clothing you can afford. In addition, looking good will make you feel good about yourself, and it will make you feel more successful.

7. **Treat Yourself to a Small Luxury.** It's essential to set money aside for a rainy day, for investments, and for your retirement. However, it's also important to treat yourself to small luxuries once in a while.
8. **Let Go of Things.** Letting go of items and possessions which you no longer find beautiful or useful can help you to make room for good things to come into your life. Also, decluttering will help bring to your awareness the fact that you own a lot more things than you need, which will go a long way toward making you feel wealthy and lucky.
9. **Start a Dream Jar.** Setting aside some money—even if it's just one dollar a day—and placing that sum in a dream jar.
10. **Spend Time in Nature.** Instead of going to the shopping mall, go to the beach. Instead of watching TV, go to the park, sit under a tree with a good book, and read. It's hard to harbor feelings of lack when you're surrounded by the abundance of nature.
11. **Learn a Marketable Skill.** Prepare yourself to be wealthy and successful in the future by learning a marketable skill now. The more valuable you are to others, whether it's a boss or your clients, the wealthier and the more successful you'll be.
12. **Set Goals For the Future.** Accept where you are now, while you make plans for where you want to be in the future. Then, allow yourself to feel that you can, and that you will, have these things.

Conclusion: Live your best life by feeling wealthy, lucky, and successful
